

Lecture Reflection: L18

Course: IT Project Management (BIT)

Date: Tuesday – 02/12/2025

Topic: Applying SWOT Analysis

Instructor: Dr. Ahmad Kheraisat

Student: Dareen Qutishat (0221733)

This lecture focused on using SWOT analysis in real-world project scenarios to solve specific problems.

I learned how SWOT analysis supports strategy and problem-solving within project environments.

It showed how structured analysis helps project managers make more informed decisions.
