

Lecture Reflection: L6

Course: IT Project Management (BIT)

Date: Thursday – 23/10/2025

Topic: Blended: Waterfall Model

Instructor: Dr. Ahmad Kheraisat

Student: Dareen Qutishat (0221733)

This session explained the Waterfall model's phases and the linear structure required for sequential development.

I learned about the model's specific advantages and its major limitation: a significant lack of flexibility.
