

Lecture Reflection: L11

Course: IT Project Management (BIT)

Date: Thursday – 06/11/2025

Topic: Blended: Scrum vs Waterfall

Instructor: Dr. Ahmad Kheraisat

Student: Dareen Qutishat (0221733)

In this lecture I learned about the predictive approach like the waterfall model and its phases , I also learned about the scrum framework which is a type of the agile model , I learned how the sprint workflow operates , and how the waterfall model requires well defined requirements and how the scrum supports flexibility.
