# Lecture Reflection: L19

**Course:** IT Project Management (BIT)

**Date:** Thursday – 04/12/2025

**Topic:** Blended: PERT & CPM

**Instructor:** Dr. Ahmad Kheraisat

**Student:** Dareen Qutishat (0221733)

The session introduced PERT and CPM as fundamental scheduling tools for managing project timelines.

I learned how these tools help managers determine task sequences and total project duration.

They are essential for identifying project dependencies and ensuring resources are allocated correctly.
